IPSWICH MOTORWAY UPGRADE: FULL STEAM AHEAD

Federal Member for Oxley Bernie Ripoll is pleased to report that work is progressing well on the Ipswich/Logan Interchange which is part of the new Ipswich Motorway Upgrade.

"As part of my commitment to keeping our local community informed, I have a community information flyer outlining construction activities for the project in the coming weeks.

"This flyer details piling for bridges at Woogaroo Creek and at the interchange area, as well as the removal of a tree at Leslie Park, Gales.

"The tree is currently located in the path of the future left turn from the service road beside the motorway into Bertha Street" Mr Ripoll said.

In other developments we will see the project's next major traffic switch planned to occur in the coming months.

"These are exciting times for the Western Corridor and with traffic still continuing to flow freely and the dangerous right hand merges now obsolete it puts to bed the fears whipped up by those that opposed this essential upgrade" Mr Ripoll said.

To receive the flyer outlining the next stage of the upgrade please contact Mr Ripoll's office on 3818 3900 or for any other queries please direct your calls to the project's free call hotline on 1800 703 093.
